

INSTALLATION: Surface-mount
FOR SPEAKER SIZE: 8" EIA
FOR GRILLE TYPE: Screw-mount

Large volume surface-mount steel enclosure for ceiling or wall installation is designed to mount a screw-mount grille with a standard 8" speaker. The clean square format is ideal for schools, offices, restaurants, hotels and similar venues. Thick acoustic lining allows the speaker to operate at a more optimum loading level and provide the system with improved low frequency response.

FEATURES:

- **Construction:** Precision formed 18-gauge certified U.S. steel with white powder epoxy finish. Welded seams.
- **Dimensions:** 12.56" square
- **Depth:** 7.94"D
- **Volume:** 0.73 cu.ft.
- **Installation:**
 - Front formed flanges with U-clips will accept a screw-mount grille.
 - Universal mounting pattern in rear for installation to 4"square, 4"octagon, 1-gang or 2-gang electrical box (not included).
 - *Note: A standard 8" EIA speaker would mount to a (screw-mount) grille. The grille would then mount to this enclosure. Order speaker and grille separately.*
- **Knockouts:**
 - Rear hole with grommet (0.375") for wire access
- **Acoustic Treatment:**
 - 1-1/2" thick acoustic batting
- **Country of Origin:** Made in U.S.A.
- **A&E Specifications:** The surface-mount enclosure for 8" speakers shall be Lowell model CB88, which shall be fabricated U.S. steel with white powder epoxy finish, 12.56" square x 7.94"D. It shall feature a rear hole (.375" dia.) with grommet for wire access, and provisions to mount to an electrical box (4" square, 4" octagon, 1-gang or 2-gang – not included). It shall also feature four mounting holes and 8-32 U-clips at flanged corners to accept companion screw-mount grille with adapter plate model JG-8X (ordered separately). It shall include 1-1/2" thick acoustic batting.

COMPATIBLE COMPONENTS (order separately):

- Speakers: 8" EIA
- Grille (screw-mount): JG-8X
