

features

- **Description:** Heavy-duty adjustable leg levelers stabilize racks on uneven floor surfaces and include a rubber base to electrically isolate the rack from the floor.
- **Construction:** C1008 steel with rubber base
- **Load Capacity:** 375 lbs. (per glide)
- **Origin:** Made in U.S.A.
- **Installation:** Suitable for use with all Lowell steel floor racks. Insert 1-1/2" stem of leg leveler into threaded fastener in rack base. 3/16"-16 thread allows for easy adjustment for leveling rack.
