

Model

UPS6-SNMP-EMP

Environmental monitoring device

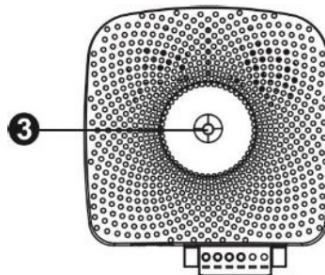

Connectivity device for use with Lowell UPS (model UPS6LI-600) and SNMP card (model SNMP-J60), remotely monitors temperature and humidity via an SNMP manager.

FEATURES

- Measures temperature and humidity
- Provides two dry contacts to receive signals from up to two compatible devices such as a security system and alarm system (user defined)
- Management software to remote monitor temperature and humidity status via web browser
- Measures temperatures between 0 to 100 degrees C with an accuracy of 1.5 degrees C
- Measures relative humidity between 10 to 90% RH with an accuracy of $\pm 3\%$
- Simple installation. See Quick Guide for information.
