

Recessed rear door with cable entry brush panel.

Model No.

RDC Series

Rear Door with Cable Entry Brush Panel

- Rack Units: 35U, 40U, or 44U
- Overall Depth: 0.73" [19]
- Overall Width: 19.875" [505]

The rear door with cable entry brush panel is available for use with LER and LGR racks. Order rack without a standard rear door (-LRD model) and order this door separately. Available for 35U, 40U, and 44U racks only.

FEATURES

DOOR CONSTRUCTION:

- Vented at top and bottom
- Integral recessed handle
- Keyed lock (keyed differently than front door)
- Mounts with right- or left-hand swing (field changeable) with spring-loaded hinge pins.
- Door is shorter than standard rear door allowing brush panel to fit at bottom
- 18-gauge steel with black textured powder epoxy finish
- Made in the U.S.A. with certified U.S. steel

PANEL CONSTRUCTION:

- Open base panel allows passage of large cable bundles, without fishing. Lay cable bundles, place panel over them, and snap in place.
- Brush strips prevent bypass airflow and keep dust/contaminants at bay
- Tool-less install/removal
- Mounts in rack slots, snaps into place with buttons on both sides

A&E SPECIFICATIONS

The rear door shall be Lowell Model _____, which shall be 18-gauge steel with black textured powder epoxy finish. The door shall be vented at top and bottom. It shall mount with left- or right-swing, using spring-loaded hinge pins. The door shall feature a cable entry brush panel at base, recessed handle, and key lock.

OPTIONAL: (ORDER SEPARATELY)

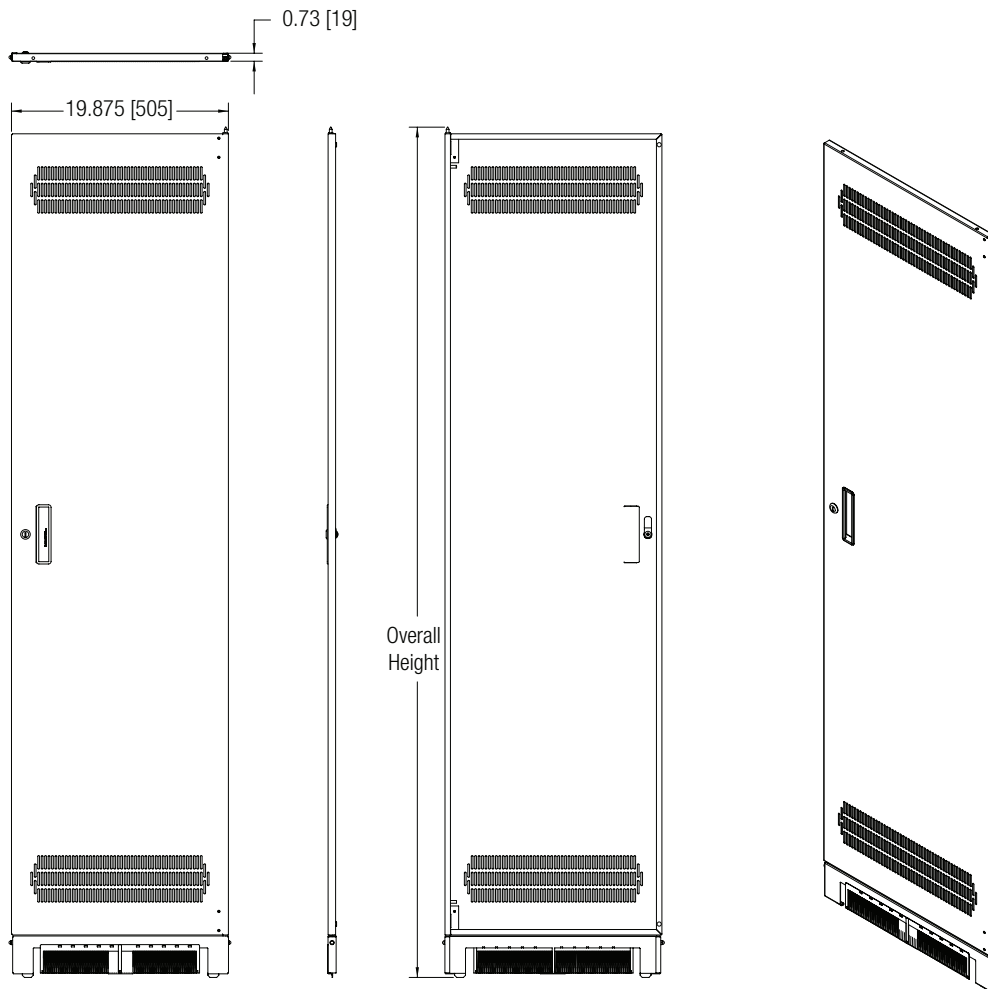

- TLK: Thumb-turn cam latch replaces key lock cylinder, enabling the door to stay closed without locking it
- FW2-RD Series: Fan Panel for rear rack door

Open bottom brush panel allows large cable bundles to be installed in rear of rack, without fishing.

TECHNICAL DRAWINGS

Dimensions are inches and [mm] unless stated otherwise.

SERIES SUMMARY
