

LHR-FD Series

Front Door for LHR Host Racks

Reversible surface-mount front door for Lowell host racks can be mounted with left- or right-hand swing. For use with Lowell host rack series LHR.

FEATURES

CONSTRUCTION:

- Steel with black wrinkle powder epoxy finish
- 21.75"W x 2.50"D
- Swings open 180-degrees
- Integral recessed handle
- Keyed lock (keyed differently than rack rear door)
- Made in the U.S.A. with certified U.S. steel
- Two Styles: solid steel, or steel frame with smoked plexiglass insert.

MOUNTING: Mounts left or right and extends 2.50" from rack frame, providing approximately 3.00" space to accommodate equipment knobs. Change orientation by moving two hinges and hinge nutserts on matching Lowell racks. Hinges install with 10-32 x 1" socket-head machine screws. Black plugs cover screws for finished appearance.

OPTIONAL ACCESSORY: (order separately)

- Extra Keys: LK-FD (2 keys)

It shall mount with left- or right-hand swing and feature an integral recessed handle and lock, keyed differently than the rear door.

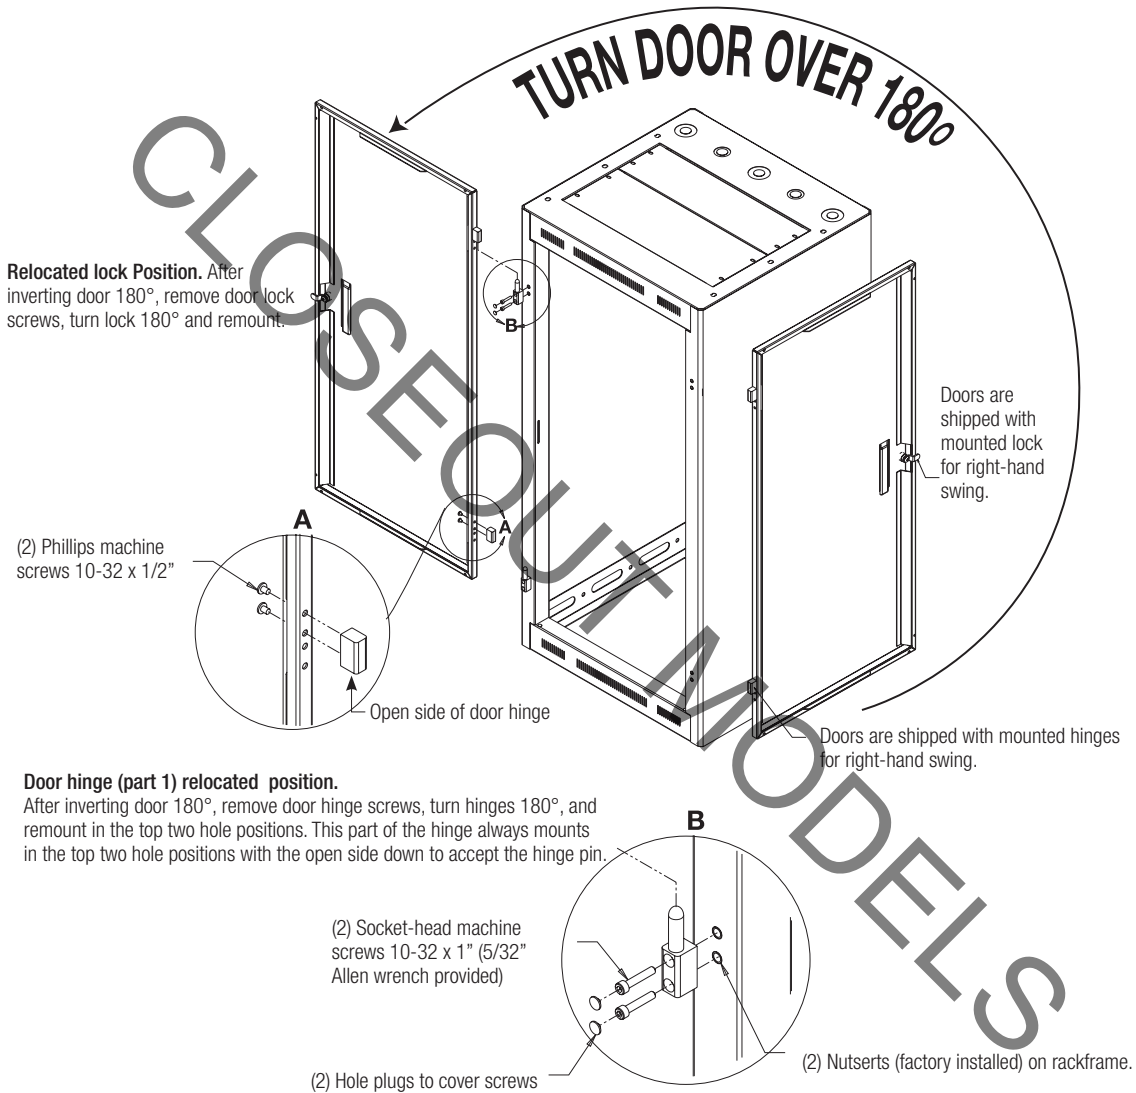

LHR-FD SERIES SUMMARY

Model No.	Rack Height	Description
LHR-FD35	35U	Solid steel front door for LHR-3532
LHR-FD44	44U	Solid steel front door for LHR-4432
LHR-FD35P	35U	Smoke plexiglass front door for LHR-3532
LHR-FD44P	44U	Smoke plexiglass front door for LHR-3532

CHANGING FROM RIGHT TO LEFT SWING

Doors mount right or left (with hinges relocated) to premounted nutserts on each side of the rack frame. This method eliminates drilling and allows doors to be installed after equipment is loaded.

Door hinge pin (part 2) mounts to cabinet without drilling. The second part of the door hinge (pin) is always field installed to factory mounted nutserts. Nutserts are located on the front left and right of cabinet.
