

Digital Print Specifications

Print area up to 19.5" x 23.5". Products up to 5.5" high.

Customer provided artwork / information needed:

- 1) **.EPS Vector file** (details, page 2) with all text converted to outlines to ensure fonts remain accurate.

If a vector file is not available an additional charge may be required to convert artwork to a printable format. Customers will be notified before any charges are applied.

- 2) **PANTONE Color Bridge Colors** used in artwork.

IMPORTANT NOTE:

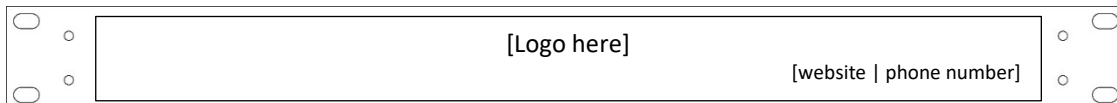

Lowell uses a four color (CMYK) print process using PANTONE Color Bridge colors. We recommend using colors from the PANTONE Color Bridge Coated color palette for the best results. **Extended gamut (XGC) PANTONE colors are not available** and will be converted to the closest CMYK color values available. Artwork supplied without PANTONE Color Bridge colors will be created using CMYK values provided in or generated from the artwork. Colors cannot be guaranteed but will be as close as possible given the information provided.

- 3) **Hardcopy sample of colors used in artwork such as a business card** (please provide for best results)

For color accuracy and font check during proofing stage. Lowell will do its best to ensure an accurate representation of your artwork and colors using this customer-provided reference.

- 4) **Sketch of preferred placement of artwork** and any additional text being printed (product templates, pages 3-4).

EXAMPLE of SKETCH - 1U panel: *This can be a hand drawn sketch or digital sketch, whichever is easiest.*

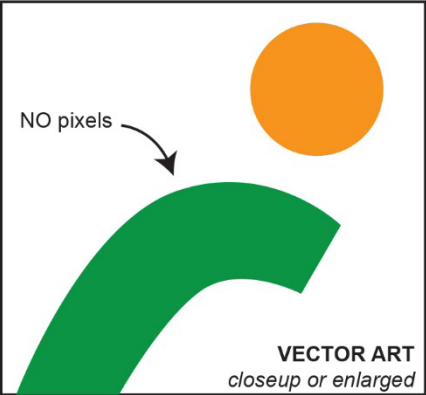

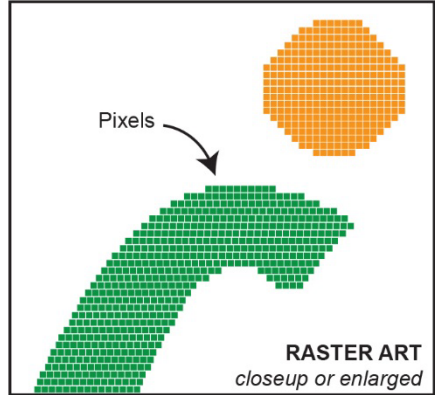

Proofs provided for customer approval:

- 1) **DIGITAL PROOF:** PDF of artwork will be provided via email before printing starts.
- 2) **PHOTO PROOF:** Photo of test print can be provided via email before first run – by request only.
