◁ Hook-and-loop strap to help secure equipment (included)

SAVE DESK SPACE
with a Wall-Mount Shelf for Personal Computer

Space-saving utility shelf keeps work areas clear by moving computer towers off the desktop and into their own space without relegating them to the floor. The WMS-CPU-4 mounts to a wall or desk, placing the CPU out of the way, while allowing computer drives and ports to remain readily accessible. This heavy duty utility shelf can also be used for a UPS or similar equipment.

- 14-gauge certified U.S. steel
- Slotted base for thermal management
- Smooth black powder epoxy finish

- Keyhole mounting slots on 16" centers
- Side slots strap
- 75 lbs. load capacity
